

Sports Data Journalist

We are offering a freelance position for sports fans interested in assisting us to collect statistics and match data from matches across the European Handball Federation's top club competitions. Payment will be made on a match by match basis.

Freelance data journalist position:

Responsibilities:

- Attend sports venues for statistics and data gathering
- Applicants do not need to be statistics experts, but do need to know the rules and the teams
- Training on how to use a laptop application will be required
- Understanding and ability to use modern communications (email, text messaging etc.)
- Comply with a professional code of conduct

Professional requirements:

- Fluent in English (written and spoken)
- Good country-specific sports knowledge
- Located in the country where matches will be played
- High standards of professionalism and integrity
- Good observational and analytical skills
- Laptop with Adobe AIR installed needed
